

THE FLASH

Barry Allen lived a normal life as a perpetually tardy C.S.I. in the Central City Police Department. Barry's life changed when the S.T.A.R. Labs Particle Accelerator exploded, creating a dark matter lightning storm that struck Barry, bestowing him with super-speed and making him the fastest man alive -- The Flash. But Barry wasn't the only person who was given extraordinary abilities that night. The dark matter also created meta-humans, many of whom have wreaked havoc on the city. New threats also arrived from a parallel earth known as Earth-2, under the direction of an evil speedster named Zoom (Teddy Sears). With the help of his adoptive father, Joe West, his best friend/love interest Iris West, and scientist friends at S.T.A.R Labs, Caitlin Snow and Cisco Ramon, as well as Harrison Wells from Earth-2, Barry races to protect the people of Central City from these powerful threats.
