Source: comScore Media Metrix Multi-Platform, Apr-Jun 2016, age/gender profile based on desktop-only; Category Affinities = Segment Metrix, Apr-Jun 2016, site visitor also visited at least one site in category within reporting month

Appendix

Methodology and Sources

- All metrics except social likes/followers are 3 month averages sourced from comScore
- UVs, traffic and video come from Media Metrix Multiplatform
- Age/gender profile comes from Media Metrix (desktop-only)
- Category affinities are sourced from Segment Metrix (desktop-only)
- Multiplatform includes desktop and mobile measurement across web sites and apps, but does not yet include mobile video
- Mobile measurement captures iOS and Android smartphones and tablets

Category Affinities – Definitions & Examples

The “Category Affinities” section of the following slides shows how likely Bell Media visitors are to also visit site categories that are interesting to advertisers.
