

Bell Media

Digital Advertising Standards and Creative Specifications

(Last revised: March 29, 2019)

To learn more about Bell Media Digital visit: <http://www.bellmedia.ca/digital/>

Contact AdOperationsSupport@bellmedia.ca for any questions

Bell Media sites are [IAB Canada](#) compliant. All Bell Media ads are served through Google's DoubleClick for Publishers Premium ad server. Bell Media reserves the right to refuse any advertising/advertisers, make exceptions to this policy on a case-by-case basis, as well as, to make changes and add to this policy at any time. If you have any questions regarding creative submissions, please contact your Bell Media Account Representative.

PLEASE NOTE: ANY ELEMENT NOT MEETING SPEC WILL BE RETURNED FOR REVISION, WHICH MAY DELAY THE EXPECTED LAUNCH DATE AND RESULT IN LOST IMPRESSIONS

^A CTV News includes National and Local sites.

^B Discovery Canada includes Discovery Science, Discovery World, and Investigation Discovery.

^C RDS: See [ad specifications](#).

^D US Brands include Discovery Channel US, Animal Planet, Destination America, Discovery Kids, Military Channel, Science Channel, Comedy Central, MTV.com.

¹300x600 and 300x1050 are only available on homepage and articles pages. For homepage Sponsorships, responsive sizes 300x600 (tablet) and 300x250 (mobile) are required for the 300x1050 format and 300x250 (mobile) for the 300x600 format.

² **RDS:** 500x500 Floating component must be accompanied by the 728x90 OR 300x250.

³ Pre-roll not available on all sites.

⁴ Can support audio pre-roll.

⁵ Needs special approval.

⁶ Only available as sponsorship on homepage and some sections.

⁷ Permitted on ROS (CPM) and sponsorship model only. It must be tested and approved (open/close function) before it is sold.

⁸ RDS Homepage: 300x600 can only be served with an ad under 120px in length in the leaderboard slot.

⁹ CTV skin is only available on homepage.

⁹ <https://www.ctv.ca/etalk> and <https://www.ctv.ca/thesocial> follow the same specs as CTV.ca

¹⁰ <https://www.theloop.ca/etalk/>, <https://www.theloop.ca/the-social/>, and <https://www.theloop.ca/your-morning/> follow the same specs as <https://www.theloop.ca/>

ESPN Ad Sizes

The following ad sizes are available for ESPN:

- 1280x100 & 1280x101 (top/bottom banners)
- 300x250
- 1680x690
- 970x66 & 970x67 (top/bottom banners)
- 970x250
- 1280x455
- 728x90 & 728x91 (top/bottom banner)
- 320x50 & 320x51 (top/bottom banner)

SLA Creative Deadlines

Standard Ad Creative	3 business days before launch
Rich Media/Third Party Ad Creative	5 business days before launch
In-Stream Video	5 business days before launch
Custom executions	30 days before launch

Z-Index Guidelines

Z-Index Range	Content Type
0 - 4,999	Standard Ads, In-banner video, Filmstrip, Pushdown
5,000 - 1,999,999	Expandable ads
2,000,000 - 2,999,999	Floating (OTP) ads
None	TSN creative types should not have z-index value
4,999	RDS Masthead (Section Sponsorship, All around the world, Superboard, Billboard) z-index must be 4 999
2,000	RDS Expandable Big Box
6,000,000+	Mobile Web Interstitials

Standard Ads

Creative Unit Name	Dimension	Max Initial K-weight (kB)	Max subload K-weight (kB)
Leaderboard	728x90 ¹	75 KB for static/ 150 KB for HTML5 ³	300 KB for HTML5 ³
Big Box	300x250	75 KB for static/ 150 KB for HTML5 ³	300 KB for HTML5 ³
Half Page	300x600 ²	80 KB for static/ 80 KB for HTML5 ³	400 KB for HTML5 ³
Mobile Phone Leaderboard	320x50	50 KB for static/ 50 KB for HTML5 ³	100 KB for HTML5 ³

- ¹ [CTB](#), Gusto, RDS and Sympatico responsive sites: 728x90 can be provided with 320x50 (see chart below) for mobile phones
- ² 300x600 requires responsive ad 300x250
- ³ HTML5 must be implemented within an [accepted third party tag](#)

Rich Media

All rich media must be [third party ad served](#)

In-Unit Video (video plays within an ad unit)

Creative Unit Name	Dimension	Max. Initial File Load Size	Max. Additional Initial File Load Size	Subsequent Max. Polite File Load Size	Subsequent Max. User Initiated File Load Size	Max. Video Length	Audio Initiation	Minimum Required Controls
Leaderboard	728x90 ¹	75 KB/ 150 KB for HTML5	5 KB	100 KB	2.2 MB; unlimited if streaming	30 sec. or less; unlimited with interaction	User-initiated (on click: mute/un- mute); default is mute	Play, Pause, Mute (and/or Volume control to 0)
Big Box	300x250 ²							
Half Page	300x600 ¹							

¹ For RDS, client must provide a 320x50 to go with the sponsored 728x90; or a 300x250 to go with the sponsored 300x600 to serve on responsive mobile web.

² A button must be added for mobile functionality for creative built in Doubleclick Studio in HTML5.

Expandable Ads

Ad Unit	Initial Dimensions	Maximum Dimensions (expanded state)	Expansion Direction
Expandable Leaderboard	728x90	728x360	Down
Expandable Big Box	300x250	600x250	Left
Expandable Half Page	300x600	600x600	Left

- See [in-banner video](#) file load specifications.
- Subsequent max. User-initiated file load size: 2.2 MB for creative files.
- Expansion of the ad can be initiated by either: mouse over/mouse off, or click to expand/click to retract.
- If user-initiated on mouse-over/mouse off:
 - Hot Spot must not to exceed 1/4 size of ad.
 - The user must pause, a minimum 1 second over the "hot spot" of the ad before action may be initiated.
- Creative must indicate that it will expand on mouse over, using text such as "roll over to expand" or similar.
- Must include "Close X" on expanded panel. (Font: 8-16pt, 11-21px.)
- Video must include play, pause, mute (and/or volume control to 0).

Floating OTP (Over-the-page)

Dimension	Duration	Initial file load size	Subsequent max. polite file load size	Video and Animation	Audio	Notes
640x480 or 500x500	Ad must close itself after 10 seconds if no user interaction takes place	Max. initial file load size: 80 KB/ 150 KB for HTML5 Max. additional initial file load size: 5 KB	Subsequent max. polite file load size: 160 KB. Subsequent max. user-initiated file load size: 2.2 MB for video file load; unlimited if streaming.	The video must include Play , Pause , Sound and volume control	Muted by default. Should be initiated by the user by deactivating the mute function.	Must not obstruct page navigation. Must include "Close X" on expanded panel. (Font: 8-16pt, 11-21px.) Floating OTP will be frequency capped at the brands discretion.

Catfish

Brand	Dimension	Max. Initial File Load Size	Max. Additional Initial File Load Size	Subsequent Max. User Initiated File Load Size	Max. Animation & Video Length	Audio Initiation
Bravo, CTV, Gusto, Space, The Comedy Network	960x60	40 KB/ 100 KB for HTML5	5 KB	2.2 MB; for video file load	30 sec. or less, no loop; final frame must contain pertinent information	User-initiated (on click: mute/un-mute); default is mute
RDS	1105x100**					
CTB , The Loop/ Sympatico.ca	970x60					

- Must include “Close X”. (Font: 8-16pt, 11-21px.)
- Bottom solid image must be 50 pixels high.
- Transparent overlay must not exceed 40 pixels high, added to the top of the unit for a total height of 90 pixels.
- Must provide colour code for the filler slides.
- Catfish unit cannot expand
- ** RDS: responsive ad sizes (970x90, 960x90, 728x90, 320x50) for mobile web required. Must include the close button and have the catfish behavior
- ** RDS: frequency cap of 1 per hour for Catfish ad unit implemented. Catfish will not show up if there is a Masthead sponsorship (All Around The World, Superboard, Billboard, or Section Sponsorship).

IAB Rising Stars

*All IAB Rising Stars must be [third party ad served](#)

Sidekick (300x250 or 300x600)

Dimension	Maximum Expanded Dimension	Max. Initial File Load Size	Max. Additional Initial File Load Size	Subsequent Max. Polite File Load Size	Subsequent Max. User Initiated File Load Size	Max. Animation & Video Length	Audio Initiation
300x250	970x550	60 KB	5 KB	110 KB	2.2 MB; unlimited if streaming	30 sec. or less; unlimited with interaction	User-initiated (on click: mute/un-mute); default is mute
300x600	970x550	80 KB	5 KB	110 KB	2.2 MB; unlimited if streaming	30 sec. or less; unlimited with interaction	User-initiated (on click: mute/un-mute); default is mute

- User-initiated expand control in the in-page display unit “slides” page content to the left.
 - Expansion cannot occur on mouse over.
- “Close X” on expanded Sidekick that closed and returns user to publisher page content.
- User-initiated expand control in the in-page display unit “slides” page content to the left.
- Video must include play, pause, mute (and/or volume control to 0).
- Best practice: For times when the user’s browser does not support creative functionality (HTML5), provide a standard 300x250 or 300x600 image file (GIF/JPG).

Filmstrip (300x600)

Dimension	Max. Initial File Load Size	Max. Additional Initial File Load Size	Subsequent Max. Polite File Load Size	Subsequent Max. User Initiated File Load Size	Max. Animation & Video Length	Audio Initiation
300x600 viewable window in which total ad size of 300x3000 scrolls (5-300x600 segments)	80 KB	5 KB	110 KB	2.2 MB; unlimited if streaming	30 sec. or less; unlimited with interaction	User-initiated (on click: mute/unmute); default is mute

- Expansion not allowed for this unit.
- Video must include play, pause, mute (and/or volume control to 0).
- Best practice: For times when the user's browser does not support creative functionality (HTML5), provide a standard 300x600 image file (GIF/JPG).
- RDS – 300x250 responsive unit needs to be provided when a HP takeover/sponsorship is booked

Portrait (300x1050)

Dimension	Max. Initial File Load Size	Max. Additional Initial File Load Size	Subsequent Max. Polite File Load Size	Subsequent Max. User Initiated File Load Size	Max. Animation & Video Length	Audio Initiation
300x1050 Divided into three distinct modules	80 KB	5 KB	350 KB for creative files	2.2 MB; unlimited if streaming	30 sec. or less; unlimited with interaction	User-initiated (on click: mute/unmute); default is mute

- For RDS, 300x1050 is only available on RDS article pages.
- Expansion allowed only after user initiation:
 - Must have call to action, e.g. "Click to expand".
 - Maximum expanded dimensions: 580x460 depending on module.
 - Expanding modules must include "Close X" in expanded mode.
- Video modules must include play, pause, mute (and/or volume control to 0).
- Best practice: For times when the user's browser does not support creative functionality (HTML5), provide a standard 300x1050 or 300x250 image file (GIF/JPG).

Slider (970x90 or 970x50)

Dimension	Maximum Expanded Dimension	Max. Initial File Load Size	Max. Additional Initial File Load Size	Subsequent Max. Polite File Load Size	Subsequent Max. User Initiated File Load Size	Max. Animation & Video Length	Audio Initiation
970x90 or 970x50	970x550	60 KB	5 KB	110 KB for user-initiated slider content	After slider content initiated: 2.2 MB; unlimited if streaming	30 sec. or less; unlimited with interaction	User-initiated (on click: mute/un-mute); default is mute

- Slider expansion may be initiated by:
 - Click
 - Mouse-over
 - Hot Spot must not to exceed 1/4 size of ad.
 - The user must pause, a minimum 1 second over the "hot spot" of the ad before action may be initiated.
- Must contain "Slide back" arrow in expanded slider bar and "Close X" in slider content area that closes content area and returns user to publisher page content.
- Must contain "Close X" on un-expanded dimension to fully close ad unit.
- Video must include play, pause, mute (and/or volume control to 0).
- Must provide backup standard image file (GIF/JPG) for times when user's browser does not support creative.

Billboard: English

Brand	Dimension	Max. Initial File Load Size	Max. Additional Initial File Load Size	Subsequent Max. Polite File Load Size	Subsequent Max. User Initiated File Load Size	Max. Animation & Video Length	Audio / Video Initiation
BNNBloomberg ² Bloomberg.com CP24 ² CTV News ² Discovery iHeartRadio.ca Much Gusto The Loop1 MTV	970x250	80 KB	5 KB	1 MB	1.5 MB for creative files 10 MB total for creative and video combined All videos must be progressive load. Cannot be streaming	30 sec. or less; unlimited with interaction. 30 sec max. If User initiated	User-initiaed (on click: mute/un-mute); default is mute Play, Pause, Mute (and/or Volume control to 0)
TSN ¹							

- Adheres to [IAB Canada specifications](#). All rising stars require editorial approval prior to going live.
- Close button should be top-right and open button should not float outside of creative's area.
- All media creativity products must be approved by a Web project manager and the editorial team before going live.

¹ For TSN, Z-Index Value must be removed

² Requires editorial approval

Billboard: French

Skin/Wallpaper (Footnotes)

¹ Click on the site’s name for brand specific guidelines related to skins/wallpapers.

³ CTV site supports Universal Homepage Package (UHP). Browser width of 1452px and greater support the larger skin. Browser width of 1151px to 1451px support the smaller skin

⁵ Skin is not available on homepage.

⁶ Additional 200 x 1000 pixel width available for Safe Zone that would only appear if wider screen resolutions allows. Please see spec [example](#).

[†] Templates are available

- File format: static .JPG.
- Must be sent no later than 7-business days prior to start date.
- It is highly recommended to use fade out for borders and bottom of creative.
- For Sympatico, Actualité, EnVedette, LookDuJour, MuraMur, FraichementPresse, VoyageVoyage
 - o Wallpapers can be booked for 3 days. 5 days for DVD and movies.
 - o Wallpapers can be booked in ROS
 - o Skin is ad-served by Bell Media only and must not interact with the 300x250
 - o Skin may be clickable, but call to action must be present.
 - o It is highly recommended to use fade out for borders and bottom of creative

⁷ Sponsorship logo(s) should not appear side by side with the CTV News or CP24 logos.

⁸ CP24 Safe Zone (height from the fold) 732px. Top 68px on CP24 is reversed for breaking news; any text or graphics that appear within the top 68px will be cut off in the event of breaking news.

- Skins for The Social and Your Morning can be purchased on both The Loop and CTV and follow the specs of these respected sites.

HPTO Mobile Web – Interstitials

	Desktop only: Flip 564x75, with 225x75*			Only on non-HPO sections (header width – 1105 pixels); must be combined with 225x75

*Frequency cap must be set to 1 per day.

In-Stream Video (Pre-roll and mid-roll)

Third Party Video Tags: VAST, VPAID¹²

Video files that have already been encoded and served through third party tags should follow below specs:

Definition	Aspect Ratio	Video Frame Rate	Video Length	Audio Initiation	Audio Sample Rate	Max File Size	Media File Type	Recommended Max Bitrate	Settings
Standard	4 :3 pixel aspect ratio 0.9 16 :9 pixel aspect ratio 1.21/1.22	30 fps (progressive)	Minimum = 15 seconds Maximum = 30 seconds ³	Always permitted	41kHz - Audio should be set to an average of -12 db with nothing peaking over -9 db	10MB	MP4 Codec: H.264 (baseline @3.1)	2.5Mbps (or 2,500 Kbps)	Third party tags should be set to 100% fill within third party ad server
High	Pixel aspect ratio 1.0 square		Secure (https)						

¹ VPAID tags should include both Flash and HTML5 (JavaScript) wrappers for compatibility across browser and platform where available

² iHeartRadio app accepts only 15 sec pre-roll

³ Vast 2.0 for Eonline and Discovery

Third Party Certification Process

If third party is not listed, tag must be evaluated, tested and approved prior to running. Send request to AdOperationsSupport@bellmedia.ca.

In order to monitor the quality of ad content on our network, Bell Media reserves the right to the following at any time:

- Monitor third party servers for performance and response times.
- Request a list and/or sample page of all creative currently live.
- The ability to require express approval of any creative additions or deletions.

Data Ownership, Privacy and Laws

Bell Media adheres to the IAB Canada Standard Terms and Conditions regarding use of collected data.

From page 16 XIII. d. i. and ii. of the [IAB Canada Standard Terms and Conditions](#):

Unless otherwise authorized by Media Company in writing, Advertiser will not: (A) use Collected Data for Repurposing; provided, however, that Performance Data may be used for Repurposing so long as it is not joined with any IO Details or Site Data; (B) disclose IO Details of Media Company or Site Data to any Affiliate or Third Party except as set forth in Section XII(d)(iii).

Unless otherwise authorized by Agency or Advertiser, Media Company will not: (A) use or disclose IO Details of Advertiser, Performance Data, or a user's recorded view or click of an Ad, each of the foregoing on a non-Aggregated basis, for Repurposing or any purpose other than performing under the IO, compensating data providers in a way that precludes identification of the Advertiser, or internal reporting or internal analysis; or (B) use or disclose any User Volunteered Data in any manner other than in performing under the IO.

Viewability

- Bell Media will accept viewability tracking from above vendors on CPM campaigns only when appended to [accepted third party tags](#).
- We will continue to deliver and bill the campaign from the contracted CPM as indicated on the insertion order based on Bell Media numbers.
- Any content/keyword flags coded into the viewability tags must be disclosed to Bell Media prior to campaign going live.
- We do not bill off of in-view numbers or guarantee in-view compliance, nor offer make goods based on viewability.
- Viewability tags cannot usher in any other platform or vendor. Bell Media will pause any campaign where this behavior is detected.

Nielsen Online Campaign Ratings (OCR)

- Bell Media will accept Nielsen OCR on Desktop CPM campaigns only when appended to [accepted third party tags](#).
- We will continue to deliver and bill the campaign from the contracted CPM as indicated on the insertion order based on Bell Media numbers.
- No make goods or cancellations accepted based on OCR reporting.
- Nielsen OCR tags cannot usher in any other platform or vendor. Bell Media will pause any campaign where this behavior is detected.

Cache-Busting

- Cache-busting is required for all third party served campaigns.
- Placement of cache-busting parameters must be clearly indicated in the ad tag code.
- Third party served click URLs for hard-coded placements (text links, etc.) do not make use of cache-busting.

Rich Media Restrictions

- We do not support JAVA (not to be confused with JavaScript) due to security issues, in addition to performance issues and initial load times.
- Ad code using ILayer, Layer or NoLayer tags due to compatibility and stability issues.
- Mailto fields, as we cannot ensure the user will have a consistently good experience using ads with this functionality.

Creative Notes

- Creative with a white background must have a solid 1-pixel border (black recommended).
- All Rich Media (In-Banner Video, Expandable, Floating, and IAB Rising Stars) must be [third party served](#) and must provide a standard GIF/JPG image backup file.
- Maximum animation and video frame rate is 30 FPS (frames-per-second)
- In-Stream Video ads (i.e. pre-roll video) that are served within a video player environment; should have audio that plays automatically.
- When an ad is clicked it must launch the advertiser's landing page in a new browser window.
- Impression Tracker tags must be secure (HTTPS)

Bell Media Performance (CPC)

Creative Design Specifications

Dimension	Creative Type	Max. File Size	Animation	Number of loops	Max. Duration	Max. Frames per second
728x90	GIF/JPG/Third party tags	80 KB	Yes	Unlimited as long as it ends after 30 on the call-to-action frame	30 seconds	30
300x250						
320x50						

- For desktop: 300x250 and 728x90 are required
- For mobile: 320x50 and 300x250 are required – 300x50 and 728x90 are optional
- Rich media accepted.
- The creative must:
 - Be clickable at any moment throughout the duration of the animation.
 - Be a static image after 30 seconds.
 - Have a 1 pixel border minimum.
 - Have a clear call to action: i.e.: “click here”, “click here to register now”.
- Refer to the [Accepted Third Party Ad Tags](#)
- Offline tactics are not accepted in CPC creative content: Phone numbers, text messaging codes, websites, etc.

Dynamic Video on Demand (VOD) Ads

Please refer to Dynamic Ad Insertion (DAI) specs [here](#).

Bell Media Mobile
